

EZ1-GRIP™

World Leading Cycle Racks and Accessories

PRODUCT CATALOGUE

**WHATEVER YOU RIDE...
WHATEVER YOU DRIVE...**

WWW.EZIGRIP.CO.NZ

Congratulations

Congratulations on purchasing an EziGrip Cycle Rack to carry your valued bicycles. We are sure you will get many years of enjoyable use from your purchase. These racks are manufactured from high-grade materials and have undergone rigorous testing making them one of the best available on the market. Testing included a one million-cycle load test to ensure the rack can perform in excess of the desired loads and lifecycle expectations.

Modular System Ideology

WHY BUY MODULAR?

The all new system is modular, comprising various individual components which can be combined without the use of special tools. Thanks to the modular approach, EziGrip can be tailored to suit the changing needs of cycle enthusiasts, alleviating the cost outlay for a completely new rack system. Simply purchasing a component to compliment the EziGrip modular system can cost effectively convert the rack to suit new bicycle, vehicle or lifestyle needs.

The unique bottom sockets are available in 4 incremental offsets enabling the end user to simply purchase the correct length socket to suit their application. The main tube, known as the riser tube, is a common part connecting the bottom Socket to the Top Hanger.

The Top Hanger consists of the ever popular clamp style now known as MC Series or Modular Clamp Series - Available in 2, 3 and 4 bike versions - and the all new prong style referred to as the MP Series or Modular Prong.

The original EziGrip dates back to 1986 when it revolutionised bicycle transportation. With its unique clamp design and wide range of applications there was an EziGrip available for every application.

Simply purchase a complete rack with extra components to suit your extra needs or just components

THE CHOICE IS NOW YOURS...

WARNING: 4 Bike 'EziGrip' Bike Racks and all 150mm & 250mm bottom sockets should only be used on towbars manufactured with 20mm thick tongue material and with the use of an EziGrip approved safety strap.

Warranty Information

Limited Warranty

- The manufacturer warrants the EziGrip bike rack against defects in materials or workmanship for three years from date of original purchase. To assert a warranty claim, the owner should return the EziGrip bike rack to the selling retailer for return to the distributor, freight pre-paid, together with proof of purchase. The owner should include a written explanation of the defect. If the distributor determines that the defect is covered by this warranty, it shall repair or replace the EziGrip bike rack as it may determine in its sole and absolute discretion, free of charge. This warranty is valid to the original buyer only. It is not transferable or assignable.
- You must establish proof of purchase to obtain warranty service or replacement.
- This warranty does not cover damage resulting from improper installation, misuse, abuse, neglect, alteration, failure to perform maintenance as instructed or unauthorized repair or service.
- The owner is responsible for installing the EziGrip bike rack in accordance with the installation instructions in the Owners Manual. The owner should attach the EziGrip bike rack only to towbars for which it has been designed. The manufacturer shall not be liable if the EziGrip bike rack has been altered, damaged or rendered non-functional through incorrect installation or attachment.
- The EziGrip bike rack is designed to carry bicycles. Do not use the EziGrip bike rack for purposes other than for which it is designed or exceed the recommended maximum number and/or weight of bicycles prescribed as this will invalidate the warranty.
- The manufacturer's sole responsibility is to repair or replace a defective part being the subject of a valid warranty claim. Under no circumstance shall the Manufacturer be liable for direct, indirect, incidental, special or consequential costs or damages of any kind. Without limiting the generality of the foregoing, the manufacturer shall not be liable for personal injury, property damage or consequential damages resulting from the owner's use of the EziGrip bike rack. The liability of the manufacturer under any circumstance shall not exceed the original purchase price paid by the owner for EziGrip bike rack.
- This is an express warranty. The manufacturer disclaims any other express or implied warranties, including warranties of merchantability or fitness for purpose, to the maximum extent permitted by law. Statements, representations and specifications in any brochures, sales literature, owners manuals and other documentation concerning the Ezi-Grip bike rack shall not be deemed warranties, nor shall they extend or expand the manufacturer's obligations under this warranty.
- No employee, representative, dealer, agent, distributor or service company acting for the manufacturer has the authority to extend or modify the terms of this limited warranty unless the manufacturer expressly agrees, in writing, to such extension or modification.

Local Laws and Regulation

- It is the owner's sole responsibility to comply with any local laws and regulations that may apply, directly or indirectly, to bicycle racks and the use thereof.
